

The 16-19 Tuition Fund

Following the 2020 lockdown the 16 to 19 tuition fund is £96 million of one-off funding for the 2020 to 2021 academic year only. It is ring fenced funding for schools, colleges and all other 16 to 19 providers to mitigate the disruption to learning arising from coronavirus (COVID-19). St George's has been allocated £150 per instance for full time students without GCSE grade 4 or above in English and/or maths-in total £10,201. The Education and Skills Funding Agency (ESFA) have published guidance on how this funding should be used in schools.

- Funding is being provided to support small group tuition for 16 to 19 students in English and Maths
- Funding is also provided to support vocational courses where assessment has been deferred because of lockdown
- Although the actual tuition does not need to be for GCSE English or maths, the students supported all need to be those who had not achieved grade 5 or above in at least one of those subjects at this level by age 16
- Providers should prioritise support for students who have not achieved a grade 4 in English and/or maths. However, further to those students, if providers have funding available within their allocations they should consider whether any young people with a grade 4 also need catch up support
- Providers should also have regard to the needs of students with special educational needs and disabilities (SEND), particularly where they have experienced additional disruption to learning as a result of their specific needs and disabilities
